DETAILED ACTION

1. Claims 1-3, 5-14, 17-25, 27 and 29-48 are pending as amended on 16 November 2006, claims 4, 15, 16, 26 and 28 being cancelled.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Election/Restrictions

3. Since claims 1, 27 and 39, generic to the non-elected species of claims 11, 35 and 23 respectively have been allowed—see below—claims 11, 23 and 35 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 13 March 2006 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Response to Amendment

4. Applicant's cancellation of claim 26, filed 16 November 2006, renders the previously cited objection under 37 CFR § 1.75(c) moot.

The objection to claim 26 under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim has been withdrawn.

5. Applicant's arguments, filed 16 November 2006, particularly that the limitation "having less than 1% of the acrylamide groups in the form of carboxylate group" is fully enabled by the original disclosure, have been fully considered and are persuasive.

The rejection of claim 45 under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement has been withdrawn.

6. Applicant's arguments, filed 16 November 2006, particularly the correction of claim dependencies in claims 19, 21, 24, 26 and 45 and the clarification that the acid is the aqueous acid in claims 47 and 48, have been fully considered and are persuasive.

The rejection of claims 19-22, 24-26, 45, 47 and 48 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention has been withdrawn.

7. Applicant's amendment, filed 16 November 2006, with respect to importing the limitation of claims 4, 16 and 28—previously indicated as allowable—into independent

claims 1, 39 and 27 respectively has been fully considered and overcomes the following.
